Assessor Comments	136 store Wether Merino lambs 37-53 at assessment to avg 43kg at delivery. These 136 Lambs present beautifully for the conditions they have grown up in, the lambs have not had grain or hay to supplement them and are a credit to the vendor. These lambs have had all the animal health treatments with the new 7in1 GlanEry vac being used giving the purchaser confidence in these lambs to go straight into a paddock or program. Really all the hard work has been done even down to being key hole crutched prior to assessment. Lambs are beautifully weighted averaging 43kg and are a complete drop with a very small 5% tail retained Please note 1 lamb has a black patch around his eye can be taken out if required
