Assessor Comments	These heavy wethers present in forward to prime condition. They are a plain bodied and open face sheep. Please note 75% are the 2018 drop, and 25% are the 2017 drop. A low weight of 60kg and a high of 95kg . Of the wethers mouthed all were full mouth or just fresh full mouth. Small % showed some scaling on ears. With the recent fresh herbage and grass the odd wether is getting dirty around the back end, only a small %.10 % normal wether horn, 90% were poll. Dual purpose wethers keep as wool growers or process into the heavy mutton trade.
