Assessor Comments	Offering on behalf of Haycroft Enterprises is a line of 190 MAY/JUN 2019 Drop ewes. Ewes present in a large frame and good order averaging 64.8kg's at assessment. They are carrying a lot of wool on their backs and shorn 6kgs of wool in January at a 10 month shearing and were crutched in September. Ewes have bounced back nicely from a tough season whilst still rearing 100% lambs and are only being sold to ease pressure on retained ewe lambs. They are still in withhold from an October jetting to help protect the mob from flies/lice through the spring. All the ewes have a purple brand and some have a green mark used to identify them at crutching. Please note approx 10% of the mob possess light scur/horn. Please note that quite a few sheep have a lot of wool on the head/face as shown in pictures. Great line of proven ewes being sold with full wool to incorporate into your sheep operation.
