Skin Comment	Typical bare shorn pelts.
Wool Comment	Nareen Station objectives are to breed sheep that are capable of cutting large quantities of white bright and stylish wool between 18-19 microns.

Vendor Bred	Yes
Stock History	These sheep are bred on Barrama using Barrama genetics. They were trucked to one of the vendors properties in the autumn where they were the only sheep on the property and flourished with the season, then trucked off shears to Barrama for the spring.
Bloodlines	Each year the surplus 2 year old ewes on the property are grown out for the Annual Production Sale on Auctionsplus.

Grazing Conditions	These sheep are grazing on improved clover, rye and phalaris based pastures. Returned same
--------------------	---

Introduced Sheep	Rams Only have been introduced onto the consignment property in the last 5 years
Footrot	All consigned sheep are from a flock that is free of Virulent Footrot

Consigned sheep are from a flock that is NOT free of Benign Footrot or Scald
 Further Information: The vendor has 25,000 breeding ewes in operation. The vendor expects to see some scald in some mature sheep in some spring seasons. These ewes have been through the footbath this spring as a general husbandry practice. All sheep sold today are sound.

Feet were not inspected at assessment

Lice	All consigned sheep are from a flock that is free of Lice		
WHP/ESI	Sheep are within a Withholding Period or Export Slaughter Interval for: Avenge (63 Days ESI)

-----------------	--

Joining Details	Not Station Mated
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.
Assessor Comments	This is a draft of the Barrama bred ewes 2 year old ewes (2 x 400 run out gate), offered in the Nareen Station Annual Production Sale. Nareen Station aims to breed sheep which are highly productive and easy care. The breeding objectives in the commercial flock are to have adult sheep which are 18-19 micron and capable of cutting large quantities of white, bright, stylish wool whilst retaining size and reproductive performance on plain bodied sheep. They are ideal sheep to purchase for any wool operation, and have good size and structure for any cross breeding operation. All sheep in this assessment have been treated with Avenge-please note that this is a precautionary treatment and a practice taken out on all ewes in the Nareen Station Annual Production Sale. Please note that the vendor has approximately 3000 2 year old ewes in today's sale.

Assessor	Tom Madden (Level 1 Accredited) Phone: 0497 775 055
