Assessor Comments	good opportunity to buy genuine line of future breeding ewes, kelsos have good maternal traits, excellent mothering and milk production results in solid robust lambs, half the assessed ewes were raised as twins, kelsos have been known to be able to be mated as lambs, this is a good chance to increase crossbred ewe numbers without the hassle of breeding your own.This is one of 3 line being offered all lambs were assessed as one line and it will be a run out of the gate count
