Assessor Comments	A good to very good line of Angus and Angus cross heifers that presented in forward store condition. These heifers are really starting to power ahead and should continue to do so on good feed. These heifers would be excellent future breeders and also would suit growing out into heavy kill cattle. Heifers are NSM and will be pretested by vet on the 21st of October for buyer confidence. Please note that delivery dates will be 22nd of October to the 26th of October to allow for pretesting. Please note: 4 heifers presented with white under belly, also 1 heifer showing slight roan colour in coat (photo attached).
