Assessor Comments	A line of 9 healthy well reared weaned heifer calves sired by Chantlan bulls. The calves consist of 2 Murray Grey X Friesian and 7 Angus X Friesian calves. The calves have been drenched with Cydectin and had their 7 in 1 needle on the 15/7/21 . These calves are well grown and showing plenty of shape for their age, and would make ideal calves to turn out and take advantage of all your upcoming spring feed. The calves are in "fresh" condition and would continue to stack on the weight given the right feed. Please note the vendor is offering 2 other lots in this sale as well.
