	The steers were ok to handle in the yard when in the mob with other cattle - However, it was noted that all 12 did become slightly stirry/stirry/ agitated/nervous when isolated going through the crush & during weighing - Not considered 100% detrimental as these steers have had limited yard handling & settled down ok when let out into the holding paddock					
Handled With	Bikes , Dogs , Vehicles					
Assessor Comments	12 Angus Grown Yearling Steers - Vendor Bred - Rising approximately 18-22 months - Presenting in strong store condition with majority large frame - All mouthed at assessment (5 x Milk T, 7 x 2 Teeth Red Paint Mark) - Grass Fed/No Antibiotics - Ideally suited to top off into bullocks for a grass fed fattening program or to put on grain immediately - Older yearling steers with age/maturity & frame that have not been spoilt with feed through the Winter months due to excess numbers running on farm - Noted doing cattle given the opportunity - Purchase with confidence, these steers should do up well into very good heavy export bullocks given feed through the remainder of the Spring with a short term turn around
