Assessor Comments	An excellent opportunity to purchase some young healthy Vendor Bred Merino Wether Lambs. They are a May/June 2021 drop. Pure Roseville Park Blood and Unshorn. They have been Mulesed and Gudair Vaccinated. These Wether lambs were weaned on 5th October to take advantage of some better pastures and have since improved significantly. These Lambs were 100% weighed at Assessment to be 27-40kg and average 30.8kg. Usually offered each year in larger lots but this year the cold and wet conditions has meant that only the tops of the drop (165 out of 750) were ready for sale as Spring conditions have been delayed. They will grow into excellent wool sheep or shear and fatten to sell next Autumn or Winter. Vendor advises that at first shearing they should be about 16-17 micron.
