Introduced Sheep	1-5 sources of sheep have been introduced onto the consignment property in the last 5 years
Footrot	All consigned sheep are from a flock that is free of Virulent Footrot

	Consigned sheep are from a flock that is NOT free of Benign Footrot or Scald Further Information: The adult ewe flock does get some scald through the spring. There was no scald evident in these lambs at assessment. Feet were not inspected at assessment		
Lice	Consigned sheep are from a flock that is NOT free of Lice Details: There was some very light lice infestation found in some sheep in the flock in early September this year. All the Merino sheep and lambs were treated with Extinosad on the 23rd September and this looks to have done a good job.

JD Approved Vaccinates	Sheep are JD Approved Vaccinates. Vendor has been continuously vaccinating all retained lambs in the flock for 4 years		
Vendor Comments	These have been very productive sheep, with the Hazeldean bloodline ewes cutting a big fleece of bright white wool and raring a very good lamb. Dispersing all Merino sheep as cutting back on ewe numbers to increase cropping area.		
Joining Details	Not Station Mated		
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.		
Assessor Comments	These Merino ewe lambs are part of the entire drop of Merino ewe lambs being sold. These are breeder sheep and part of a complete dispersal of all the Merino sheep on the property. They are very well grown for their age and in excellent condition. They are OJD vaccinated and have been well mulesed. They are Hazeldean & Goolgumbra blood with selected rams purchased out of Hazeldean ram sale at Cooma each year. These sheep are renowned for being very fertile, and heavy wool cutters of very bright white wool in the medium micron range. They will grow on to be excellent breeder sheep for the successful purchaser. There is 1000 in this middle draft to be sold as a 500 & 2 x 250 head as a run out the gate.
