Vendor Comments	Annual sale of store wether lambs.		
Assessor Comments	An excellent line of 800 composite store wether lambs, bred out of big composite ewes. Ranging 26-40 kg & averaging 31.8kg two hours off feed and water. They are weaned, crutched, drenched and had their 6 in 1 booster vaccine. They have been grain trained with 8 imprint feeds of Beans prior to weaning. They are still going ahead on very good paddock feed. From previous buyer feed back they are good doing lambs and will hit export weights given the right feed.
