Assessor Comments	Offering a line of young future breeding ewe lambs. These lambs are medium frame for age and present in store - forward condition. Majority of the lambs are June/July drop, but there is a odd lamb which is May drop in the mob. Lambs have had all the treatments like Gudair , Eryvac and a weaner guard. Lambs are also MIsd and have been crutched. Since crutching a odd lamb has become dirty again. The vendor will run these lambs back across the board to tidy up. Show these lambs some strong hard feed and they wont disappoint .
