Assessor Comments	This is a line of 600 Suffolk Merino X mixed sex store lambs (run out of gate of 1200). These lambs were weighed out with a bottom weight of 28kgs and top of 35 at assessment. These lambs were weaned in the last week of September and separated into weight categories, where the lambs received a cydectin drench and a mineral supplement as a general husbandry practice. They are a nice line of black faced store lambs that are ideal to turn out and fatten for the trade or export markets. The vendor purchases top Barrama blood ewes annually from one property, and sources rams with high growth rates and EMA data from renowned Suffolk studs LSK & Croydon. Please note that the vendor has 1200 lambs of the same description in today's sale.
