Health Declaration	A National Sheep Health Declaration will be provided at Delivery AT BUYER REQUEST		
JD Approved Vaccinates	Sheep are not JD Approved Vaccinates.		
Other JD Management	All introduced livestock are from low risk areas.		
Vendor Comments	These ewes have proven to be very productive, having raised 2 drops of lambs since being purchased in lamb in May last year. They produced a very attractive White Suffolk X sucker,(weaned 27/8) which maintained excellent freshness, last time around.		
Joining Details	Not Station Mated		
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.		
Assessor Comments	A well bred, line of White Dorper mature-aged, very productive ewes. These ewes were purchased in May 2020, as depastured to Dorper rams, ex Western Queensland producer. Ewes scanned up 90% in lamb with the dry's sold off last year. These ewes successfully raised 125% of Dorper lambs & were rejoined to the vendors White Suffolk rams, producing 130% of suckers last drop. Ewes are proven breeders that have produced & raised 2 drops of lambs in a 14 month period. All ewes have been mouthed and visually inspected for faulty udders, with any ewe deemed to be not sound on teeth or udder removed prior to assessment. These ewes have demonstrated excellent production, & with good mouths and plenty of constitution left in them, it would be a shame to deny them the opportunity to go around at least one more time. A small percentage of ewes present with scaley ears attributed to age (see photos). 100% of mob weighed for buyer confidence. 46 Dorper cross ewes from same mob, offered this sale also.		
Assessor	John Hyland (Level 2 Accredited) Phone: 0429 207 560		
Delivery Period	27/10/2021 to 02/11/2021 (7 days)
