| Assessor Comments            | A nice line of White dorper & dorper ewes showing good shedding ability. There is 23 of these ewes of which 15 ewes are one year old and 8 ewes are two years old. They were vaccinated in June with ewe guard. They were scanned empty on the 13th of October. A small line of top quality dorper ewes that would make a good starter or additional mob to continue to breed from.          |
