Assessor Comments	Presenting a line of Dohne ewes with Dohne lambs (unmarked) at foot. Purchased ex Central west area as NSM and these ewes commenced lambing post shearing, Vendor had the mob scanned to split pregnant sheep aside. 2 Dry ewes were removed at assessment and there are still 2 ewes in consignment that look like they are still to lamb. Young ewes are in light condition and putting it all into their lambs that are fresh and sappy. Solid medium frame ewes. Vendor would of retained this mob but are for sale to make way for cropping program next year. Some ewes have stain/ dag around breach/back leg. 1 lamb displayed lameness in hind leg at assessment.
