Assessor Comments	This is a complete flock dispersal so there is young 4 week old lambs at foot with all ages in between right through to 7 year old ewes. Some of the very young lambs are also not marked and some are wethers. There are no wether lambs older than 2 months as they are sold throughout the year. This is a handy lot of mixed age ewes for someone to start a herd from scratch with the option to keep the mob together with the 2 rams still in the mob.
