	B (66-70cm)	10%			Light	10%
Assessor Comments	Great neat line of Ewe Hoggets, Ewes present in forward store condition and are very plained bodied. Large percentage of these ewes still have lambs teeth. Ewes are un-mulsed but due to their plained bodies and very minimal breach wrinkle, I can't see a high maintenance issue. Ewes cut 3 kg of wool five months off-shears, so would suit a 6-8 months shearing program.
