Assessor Comments	Being sold as ewes with lambs at foot given in,this is a line of Poll merino and Dohne ewes with fresh lambs at foot. There is approx 140 poll merino ewes July /Aug 2019 dp that have been bred by the vendor from Calcookara stud commercial ewes,with the balance being 110 Dohne mixed age ewes purchased from the OBrien stud commercial flock. They have been containment fed due to paddock feed running out,and the vendors cropping program for next year does not require sheep. The lambs at foot are fresh and have been muelsed and tail stripped,and were dropped over 10 weeks. These ewes have done a good job so far with their lambs and will continue to improve on paddock feed . The lambs should be ready for the autumn lamb trade market given an opportunity.
