|                               | These heifers worked very well through portable panel yards. Seven heifers did become agitated when being mouthed and weighed but settled down straight away with the mob. On the whole, well handled quiet heifers.                                                                                                                                                                                                                       |                                                             |                                     |

| Assessor Comments             | 38 good quality Angus and Angus Cross heifers presented for your competition. These heifers are very quiet, well handled, soft heifers. They have the temperament, quality and maturity to join to the bull of your choice as future breeders or alternatively would suit trade feedlots or growing out to heavier weights. Please note 1 heifer does have minor ring worm on her face and neck and 1 heifer has blue scarring on one eye. |                                                             |                                     |
