	Heifers handled very well through yards and crush. Heifers worked extensively in paddock with dogs.																						
Handled With	Bikes , Dogs																						
Assessor Comments	A good line of principally Droughtmaster, Charbray type heifers. Heifers purchased for backgrounding operation as light weaners and have done very well. Heifers are not station mated but 1 Hereford bull got in with approx 20 heifers for 1 day. Heifers worked well through yards and crush. Note 1 heifer show injection lump (photo), 1 heifer with fresh pink eye and treated with orbenin cream. Heifers are well grown and show good bone and type. Please note - Due to scales breaking 67 heifers out of 80 were weighed. Photos of unweighted heifers attached (045, 048, 051, 054). Heifers not weighed appear exactly the same as weighed heifers. Vendor can give extended delivery to purchased with weather/road conditions as they are. Vendor has another lot (20 head) of more brahman types this sale.
