Another great load of properly educated Angus feeder steers to work with. Credit to the vendors on the cattle's handling. No stirring, no fuss, easy to work with.

## Handled With

Bikes , Dogs , On foot , Vehicles

## Assessor Comments

Another spot on B Double load of Angus feeder steers right in the slot for weight, condition and type. Purchased via the CTLX Blue Ribbon Weaner sale at the end of March and via Aplus in early April ex some very long standing Angus herds from the local district. These steers have been grazing fresh highly improved pastures over recent months and considering the extended bleak and wet conditions experienced through winter and spring across the Central Tablelands have really performed well. Presenting in ideal condition these steers are primed to enter the feed pens in a very tight weight bracket. To fit in with most yard requirements the steers were treated with their first Bovilis MH + IBR shot and are timed ready to receive their second by delivery and induction. Please note extended delivery given in assessment to suit your induction requirements. If this had to be modified happy to work in.
