|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Assessor Comments | Excellent opportunity to purchase low dollar, grass eaters to grow into large steers. Very quiet steers to work in paddock, yards and crush. Ideal steers for the less experienced. 11 steers in top draft weighing from 234 to 270kgs presenting in a very even line. 29 steers weighing 273 to 322kgs in same sale. Small percentage of steers showing minimal signs of ringworm and warts, not detrimental. |
