Paddock

These Heifers had a little bit of run in them when first put in the yards but to be fair we did run them straight in and start assessing , the majority settled quickly after they left the crush. A few did not like the crush but nothing unusual there. Overall Heifers that have been well handled and are easy to work with.

Handled With

Assessor Comments

A tidy line of well bred Millah Murrah blood Heifers, These Heifers are the ideal weight and condition to grow out. They have been on a rising plan of nutrition for 6 weeks and are on the move alternatively they will finish on grain or grass . As you can see by the video they have the frame , conformation and muscle pattern you would expect from the Millah Murrah blood lines. The breeder has selected bulls on type not price and this shows through. Heifers that have performed as breeders in the past and will finish quickly. There is another lot from this vendor also on offer in this sale.
