	Quiet: 100 head		Quiet: 100 head		Temperament not assessed in			
	Slightly Stirry: 5 head		Slightly Stirry: 5 head		Paddock			

This line of weaners steers can not be faulted on their temperament. Very easy-going to handle, especially noting that they are in the process of being weaned. The vendor has recently made grazing management changes that have resulted in their cattle being easier to handle through the yards & also in the paddock.

Handled With Bikes , Dogs , Horses , On foot , Vehicles

Assessor Comments A excellently bred line of Angus weaner steers. This group of steers were a delight to handle throughout the assessment & are a credit to the season that has allowed for great growth in the vendors weaners. A great opportunity to secure a B-Double load of fresh, vendor bred Angus steers averaging 322kg at delivery. The hard work of weaning the steers is being done currently, having been drafted off mum on the 30/12/2021 and being yarded until 5/12/2021. Buyers please note; I have made 0% adjustment for curfew as the cattle have walked 3km to the yards and have had 24 hours off feed prior to assessment. I also have not allowed for any weight gain prior to pick-up to allow for weaning adjustments. Also to be noted; the steers are having their first BoVillus 1/12/2021, and the 4 head that were noted to have non-detrimental and non-active pink eye are being treated.
