Assessor Comments	Good young friesland and friesland X bull calves that have been well reared and already weaned onto grass and hay currently grazing oat crop. The calves have been purchased from local neighbouring dairy farms with the majority of these calves being from only 2 farms that milk mainly friesland cows with a few Aussie Red cows. The calves are well grown and fresh in condition with 4 of the older calves are steers and the calves balance being bull calves. Please note: There is the odd calf that has an old pink eye scar, and one calf was treated for pinkeye at assessment.
