Assessor Comments	A line of Quality Angus and Angus X steer weaner calves sired by Merridale P145 out of cows purchased as cow and calf units out of inverell 2019. The steer weaners have had both shots of 7in1 and drenched with Noremectin prior to being yard weaned for 7 days. These are genuine march/april drop weaners that are performing extremely well and will continue to do so given the right nutrition. Note. 1 steer has old pinkeye scar and another steer has a small lump on the side of the jaw.
