Assessor Comments	A line of 5 friesian and Aussie red x bull calves all purchased off 1 local dairy farmer that has been breeding cows by AI for 20 years. All the calves have been weaned into a paddock of rye grass with access to cereal hay and a calf grain mix. The calves have been drenched with dectomax and injected with B12 and 5in1. This is a rare opportunity to purchase young cattle at very "low dollars" per a head.
