	All steers were very good to handle through the yards. There was plenty of people around and all animals remained quiet. Once we open the gates and let them run some of them took off through the gates but pulled up once in the paddock.

Assessor Comments	62 Well bred Angus steers. Mixture of vendor bred and non vendor bred. All weighed between 300kg - 386kg to average
-------------------	---

332kg after 5 hours off feed and water. All the vendor bred steers are bred by Banquet bld cows and sired by Te Mania and Chiltern Park bulls. The non vendor bred steers were purchased earlier in the year from North East NSW as Cows and Calves. They were Yard weaned for 7 days and have received all animal health requirements. Its been a long cold winter near Mortlake and most of the calves still have their winter coats. Their older brothers always grow into big stretchy hvy feeder steers with positive feedback from feedlots.
