Assessor Comments

A one deck line of PTIC mixed age cows that are 2 to 7 months in calf. They have been preg tested as 16 greater than 4 months and 9 under 4 months. These cows are just one mob that are on offer from the vendor due to the recent sale of their property. Cows have had large calves removed from them in the past month and are in store condition. Cows were not mouthed due to a difficult situation so could only go off number brands. Two cows had lumps on the neck due to prior injections. Cows are best described as Grey Brahman cows with one Red Brahman and one Droughtmaster cross cow. They have been great breeders for the vendor with very good temperament and will produce a quality calf. The "Yanna" cattle always achieve great sale results when selling in the open market due to the quality of cattle produced. Vendor has another four lots in same sale.
