Assessor Comments	These Angus cows and calves would be a great addition to any prime beef breeding operation. They have been handled in a low stress operation to make these cows easier to handle during all management practices. Though there's only a small group of these cows, they would bring a great level of practicality and maturity on introduction to any herd. Vendor also has 12 outstanding Angus Heifers PTIC 6 to 8 months in this sale. There is an odd old pink eye scarring which is more cloudiness than eye damage of which was no detriment.
