Handled With	Beautiful natured cattle to draft and put through the weighing and assessing process. Very well educated and flowed through the yards with ease. Bikes , On foot , Vehicles
Assessor Comments	Annual draft of the Glenruben Angus PTIC heifers to commence calving February (Depastured 5th May - 30th June to Glenruben NLVQ74) , offering 35 heifers over two lots. Heifers are APR registered and vendor will transfer at the buyers request and expense if required. Glenruben Angus have been breeding top quality Angus cattle for in excess of 50 years and carry an excellent reputation in the Angus world for breeding sound, volume females with noted performance in their progeny. These heifers were a pleasure to handle in the yards through the drafting and weighing process as they always are, being well educated and handled throughout their life. Noted an odd heifer with some white on her udder. Highly recommended to the top end breeder who wants quality females in the front paddock.
