	These cows generally moved pretty well through the yards. They do move a little faster when put under pressure, but will block up. 1 cow was slightly agitated when being mouthed in the crush and she also pushed to the back of the mob in the yards when under pressure.	
Handled With	Bikes , Vehicles	
Assessor Comments	An small line of station mated - 7 - 8yr old Angus cows doing a good job on their calves at foot. These cows are only for sale as the vendor has recently sold off a bit of country and needs to reduce numbers, otherwise these cows would be retained to breed on with. NOTE - 7 cows do have either a long back / front toe or cracks in their front feet. They have just come through a really wet winter / spring which has been hard on their feet. All cows are sound - no cows were lame at assessment. Please take note of photos showing these feet. NOTE - 1 cow has an old pink eye scar - 5 cows have the smallest amount of white on their udder. There is 13 steers and 9 heifers in this mob - all marked. NOTE - the vendor has another run of cows and calves in this sale.
