Assessor Comments	When purchased on A+ in April the TRT Heifers were tested as empty or Non- Detectable. These turned out to be in calf and are now being offered with their Second calf at foot. Please note that Two were in the paddock calving on the day of assessment. They are not in the photos or video but are of same type and quality as all the other TRT Cattle. The Nine we weighed had Five Steer calves and Four heifer Calves at foot weighing from 58 to 155 Kg to av. 100 Kg. Unsure of the gender of the Two baby calves. The Cows are in great order and calves are going great guns.
