	Very well educated heifers with an extremely quiet temperament. Vendor spends a lot of time with them and can even feed them by hand. All heifers stood still and patiently on scales during the weighing process and exited at a slow walk. These heifers could be recommended to people with all levels of experience with livestock.		
Handled With	On foot , Vehicles		

Assessor Comments	On offer is a pen of extremely quiet PTIC Angus heifers which have been bred predominantly from Witherswood stud Angus cows. These heifers have the breeding and temperament behind them to make them a perfect addition to any front paddock herd, or to start a line of well bred young females that have a lifetime of quality breeding potential in front of them. Vendor selects females with an emphasis on growth, frame, milk and temperament. Heifers have been joined to a low birth weight Anvil angus bull and are due to start calving mid February 2022 for 7 weeks please see attached bull figures. Note 4 heifers showing some white on udder. Please also note that 5 heifers have had antibiotics for feet issues after a wet spring.
