Temperament

Yards	Crush	Paddock
Quiet: 25 head Slightly Stirry: 9 head	Quiet: 25 head Slightly Stirry: 9 head	Temperament not assessed in Paddock

These are excellent cattle to handle, and they flowed extremely well through the yards when assessing them.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	This is an excellent line of PTIC EU Black Baldy Heifers. They are bred out of the renowned Nareen Station cow herd which was originally Hereford based. Top end Weeran and Stoney Point Angus bulls have been purchased and used extensively within the herd over the last 20 years, with heavy selection for traits of Birth Weight, 600 day growth, Milk, Fat and EMA. These heifers have excellent depth and shape and will grow into very big, solid and heavy cows. 11 of these heifers have a notch out of their ear tag, identifying them to be in the calf for the second cycle of joining, so the mob can be split for management purposes for calving down if desired. This presents a very good opportunity to secure breeder heifers PTIC that have a solid reputation of breeding quality.
