Assessor Comments	A great opportunity to secure well bred Stoney Point, Hazeldean & Coolana blood PTIC heifers. This is a complete drop of the 2020 drop females from their 'Stoney Well' property. There are 168 in total and have been drafted into seven lots of 24. These are deck lots, thus allowing the potential buyers to buy single or multiple lots (Road Train Access). Due to a property sale and management, a decision was made to offer the complete drop and in doing so creates a great opportunity to the market. These heifers have a great temperament, there quite and handle well. The quality of their breeding is quite evident as these heifers show plenty of shape and length, along with depth of body. These girls would be a great addition to any herd. Mated to Stoney Point stud heifer bulls for a 2022 autumn calving. Three heifers in this lot have a touch of white on their udder region that is all backwards of their navels.
