Assessor Comments	Plenty of options with these lambs , ewe portion could be retained & joined to a terminal sire . Their mothers are large frame & the breeding in the lambs shows plenty of lenght & barrel . Lambs weaned on assessment & expect a small weaning check , jetted with fly & lice on the breech & back as a precaution with prevailing conditions . Clover burr predominately, lambs would benefit from shearing to free up, found a small amount of wiregrass in the flank. Outstanding run of lambs , offering another lot of 400 same sale with delivery run out the gate.
