Assessor Comments	97 X 'Tullinga' blood white Dorper lambs, Aug/Sep 2021 drop. These lambs are in store to fresh condition, and have grown out well for their age. Lambs will be weaned at delivery. Ideal lambs to grow out and retain ewe portion. This vendor has been breeding white Dorpers since 2005 and was one of the first to establish the breed in Western NSW. He also had a registered stud, 'Tullinga White Dorpers', breeding rams for clients in his district and further west. These sheep perform very well over the hook, and often have very positive feedback from processors in NSW & VIC. This is the final dispersal of the 'Tullinga' commercial ewes and lambs. At assessment 2 lambs were noticed to have black markings, and 1 ewe lamb with a tail. Sex breakup of these lambs, 43 x ewes, 54 x wethers. Buyers note; there is another two lots of 'Tullinga' sheep in the Tuesday National Sheep Sale: 1 line of 107, 2017 to 2020 drop NSM white Dorper ewes and another line of 117 future breeder ewe lambs.
