Vendor Comments	Shame to see these go, only selling due to the flood that took out most of our property		
Assessor Comments	On offer is good line of forward store lambs. these lambs would be ideal to feed and grow into export weights. They are bred out of large framed Western Australian merino ewes by quality New Armatree and Tenalba super border rams. These lambs would usually be grown into heavy export lambs but a flood has forced them on the market early, all the hard work has been done. please not large spread in weights from 37-60kg with the lead of the lambs with 2 feet in the till. A prompt delivery would be appreciated as paddock feed is minimal due to the farm flooding and losing good pasture stands.
