Bloodlines	The vendor has been running a self replacing Cashmore Oaklea flock for 8 years.

Grazing Conditions	Currently grazing on improved clover and rye grass pastures, and have also had access to lucerne over the last 2 months. Lambs have also been trained on grain (barley). Returned same
--------------------	---

Introduced Sheep	1-5 sources of sheep have been introduced onto the consignment property in the last 5 years
Footrot	All consigned sheep are from a flock that is free of Virulent Footrot Consigned sheep are from a flock that is NOT free of Benign Footrot or Scald

	Further Information: In wetter than average seasons, the vendor will see scald in some of the heavy ewes on the property. Occasion precautionary footbathing will occur in winter and spring. All sheep in this assessment are sound.
	Feet were not inspected at assessment
Lice	All consigned sheep are from a flock that is free of Lice
Health Declaration	A National Sheep Health Declaration will be provided at Delivery AT BUYER REQUEST
JD Approved Vaccinates	Sheep are JD Approved Vaccinates. Vendor has been continuously vaccinating all retained lambs in the flock for 5 years
Other JD Management	All female sheep on the property are Gudair Vaccinated.
Vendor Comments	Reduction of surplus ewe lambs.
Joining Details	Not Station Mated
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.
Assessor Comments	This is a line of 205 June July 2021 drop Cashmore Oaklea ewe lambs. These ewes are ideal as an addition any composite flock, or to purchase to background to begin a stand along self replacing flock. The vendor purchased rams annually from Cashmore Oaklea and when selecting sires looks for traits such as high growth rates, low birth weights, high FEC's, positive fat and black feet and noses. This particular line of ewes would suit a maternal operation or a terminal operation, and come with our highest recommendations.
Assessor	Tom Madden (Level 1 Accredited) Phone: 0497 775 055
