Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.
Assessor Comments	On offer are the lead draft of the Mason family lambs, presenting in principally fresh, forward store to forward condition. Lambs have been vaccinated with 6-in-1 + B12 twice and were drenched a month ago. Principally sired by quality Glentanna White Suffolks rams (small percentage Composite sired) and out of medium to large frame crossbred ewes, these lambs have the breeding behind them to take out to heavy weights. A 25% tail has been removed and lambs will be weaned onto the truck, with these representing the lead of all lambs bred by the vendor. Terrific chance to take on well bred, healthy, late drop lambs to take through to heavy trade or export weights.
