Assessor Comments	A nice 4 deck lot of well bred 2nd x weaned lambs. There is a lot of genetics in these lambs with the ewes being composites and the Rams are white suffolks, selected of high indexing LEQ . Rams are Kyanga & Waratah blood. There is plenty of shape and bone in these lambs and will make nice trade lambs or could be grown out to extra heavy export weights. Lambs are in fresh, sappy, healthy condition and are full of life. Lambs will be key hole crutched prior to delivery. Please Note there as another 180 very similar breed and weight lambs at Mortlake 25kms away in same sale if you would like to make up a neat B Double load.
