Very Good	40%								
Good	50%								
Fair	10%								
Assessor Comments	Well grown medium to larger frame Western Qld bred wethers Radnor (SA) bloodlines. Mixed ages due to large numbers of sheep being handled in the recent 2 years due to dry conditions and in were mixed other mobs over 4 properties now consolidated together. Wethers well suited to run around and shear - fatten for a quick turnover given their frame or tidy the ages up and keep in a woolgrowing operation. 2% have heavier wether or late cut horn & as mentioned earlier a small number waded through a muddy area on the way to the yards so carry a muddy underline at assessment - may be cleaner by delivery. The majority of tags will correspond to the year system however some green tags were used in an extended drop in the 4-6 tooth sheep & others as replacements.								
Assessor	Tim Salter (Level 1 Accredited) Phone: 0429 649 693
