Comment on Fat Score 1 Sheep Strong forward store to fresh condition 3% are lighter store condition yet are expected to improve significantly on the fresh green feed and now being bare shorn. 2 rainfall events since assessment on the top of a very good feed base.

Mulesed Yes , Details: The younger portion of the drop are unmulesed.
 Pain Relief Yes
 Mulesing Types Moderate: 60%
 Unmulesed: 40%
 Shearing Info Shorn 23 Nov 2021 Not Crutched
 Wool Length 100% 0 - 0.25"
 Majority Length 5 Millimetres
 Degree Burr Very Light Type: The very very odd Noogoora or Bathurst burr
 Degree Seed Very Light Type: Native seed
 Shedding Breed Contact No known contact with shedding breeds
 Skin Comment Whilst bare shorn there is the very odd ewe with light Bathurst or Noogoora burr still in the longer wool area ridge lines along the neck or legs. Some sheep show lice effects with the whole mob jetted off the board.
 Vendor Bred Yes
 Stock History The Merino Downs flock are a self replacing classed breeding flock.
 Bloodlines Terrick Poll Bloodlines

Grazing Conditions	Very good quality fresh Mitchell grass downs, lightly timbered to open loamy country. Returned same								
Introduced Sheep Footrot	1-5 sources of sheep have been introduced onto the consignment property in the last 5 years All consigned sheep are from a flock that is free of Virulent Footrot All consigned sheep are from a flock that is free of Benign Footrot or Scald Feet were not inspected at assessment

Fair	10%								
Assessor Comments	Poperty sold - Merino Downs Flock dispersal. 2-2.5 year Terrick Poll Merino ewes From a classed Poll Merino specialist woolgrowing & self replacing flock. Depastured with Terrick Poll Merino rams 05.10.21. 60% are Mar/April & 40% Sep/Oct 2019 drop - from a double joining that year. The youngest portion are unmulesed. Merino Downs is typically soft black loamy soil with aprox 15% carrying longer overgrown toes as a result of the country and not genetics & 7% carry cheesy gland nodules (no vaccination protocols). 1 ewe in the sample assessed with scurs. Being assessed the same day as shearing the sheep were fresh with shearing cuts, abrasions and the odd ewe favouring a leg for the same reason. Given time and by delivery I would expect any shearing wounds to be well on the mend or have healed. The ewes are on very good quality feed and are expected to do very well from assessment to delivery - they will only go one way and that is improve on the fresh feed.								
Assessor	Tim Salter (Level 1 Accredited) Phone: 0429 649 693 Parallel Assessed By : Cipp Murray								
Delivery Period	10/12/2021 to 14/12/2021 (5 days)
