Assessor Comments	Quality line of station bred 2015 drop merino ewes. Hazeldean blood, and present in strong store to forward store to forward condition reflecting ewes that had lambs weaned off six weeks ago. Had up to 120% lambs weaned off in October and are heavy cutting producing a soft handling 18.5 micron wool. A genuine surplus age group offered each year. Good medium to large frame ewes from a high performance flock. The odd ewe displays some softness in feet and are slightly sore footed when moved around gravel yards.
