Assessor Comments	These are your lamb rearers. They were purchased out of SA and are well detailed with the SA Merino breeders features i.e. good and strong in the frame, medium in the wool at 20.5 micron. These ewes would be perfect for breeding crossbred ewes (nice and straight) or for breeding to terminal lambs or a self replacing merino flock which was the reason they were bought onto the property. These ewes would be of great value to any sheep operation. Only being sold due to a change in location for the vendors and the property being sold. There are two other lots being offered in today's sale (900 total) with one lot of 194 x 18 month old ewes and one lot of 373 x 2-3 year old ewes.
