Assessor Comments	This is a line of 210 July/August 2020 drop Cashmore Oaklea maiden ewes. These ewes are ideal as an addition any composite flock, or to purchase to begin a stand along self replacing flock. The vendor purchased some of these ewes direct off Cashmore Park in this sale last year, and grew them out. The balance are out of the vendors own self replacing Cashmore Oaklea flock. The vendor purchased rams annually from Cashmore Oaklea and when selecting sires looks for traits such as high growth rates, low birth weights, high FEC's, positive fat and black feet and noses. This particular line of ewes would suit a maternal operation or a terminal operation, and come with our highest recommendations.
