| Assessor Comments            | This is a draft of 680 (2 x 340 run out the gate) Nareen Station bred Classed in 5 year old ewes, offered in the Nareen Station Annual Production Sale. Nareen Station aims to breed sheep which are highly productive and easy care. The breeding objectives in the commercial flock are to have adult sheep which are 18-19 micron and capable of cutting large quantities of white, bright, stylish wool whilst retaining size and reproductive performance on plain bodied sheep. They are ideal sheep to purchase for any wool operation, and have good size and structure for any cross breeding operation. All ewes in the assessment are fertile proven breeders with the vendor regularly scanning ewes post joining. All sheep in this assessment have been treated with Avenge off shears-please note that this is a precautionary treatment and a practice taken out on all ewes in the Nareen Station Annual Production Sale. Please note that the vendor has approximately 3500 5 year old ewes in todays sale. |            |                        |
