Assessor Comments	Having marked an averaged of 154% lambs from ewes joined (2-6 year olds) in the last 3 years, this is an offering of excess breeders from Lochs Farming. Coming from a 6500+ ewe flock that has been using Cashmore Park genetics, selecting heavily on WWT, EMD, FAT, NLW and WEC while retaining a ewe flock that averages 64kg in CS3. Bred for a compact deep body that holds condition and weans plenty of lambs. Prior to this yr ewes have raised lambs in each yr of their life, and all bar 30 of these ewes were scanned multiples this year
